WEDNESDAY EVENING, APRIL 8.

THE SMALL BOY—WHAT SHALL WE DO WITH HIM?

The small boy is always with us and is continually making himself felt, in one way or another. He may be said to be a power in the land, and to be becoming more and more so, as he grows more numerous and assumes, from year to year, larger proportions. The lad who has good and wise parents and is subjected to a wholesome system of "Home Rule," is not likely to get beyond proper bounds in his relations to the general public, but the boy who is "boss" in the house of his parents is trouble some to be lawless and troublesome whenever he gets beyond the premises. Many people already know this to their sorrow. This is the small boy who generates disturbance and leaves a track of devastation and fire wherever he goes. This is the kind of young person we must do something with, by way of recognition of the profusion with which he does something for us. This is the lad who needs public attention. His nose is pointed in the wrong direction and his brain and his hand are arrayed in hostility to public morality, peace and safety. He is not a villain in embryo and need not necessarily become one in development; and if community will only give him half the attention which he gives to community it will but subserve its own interests—that is to say, if the attention is of the right sort—kind, sensible, practical, fraternal, helpful and educational. If society will give the small boy, who has no anchor of his own to keep him in the right place or no rudder to guide his craft in the right direction, some help and some guidance, society will save its posterity, if not its present generation, a great deal of trouble and expense. For the small boy can be influenced, easily, by wise appliances and if his brain and hands are kept busy with innocent and honest employments he will be sure to go in right ways and finally to come into the right haven.

From a paper written by our esteemed friend, Mr. Benjamin Clarke, editor of the London Sunday School Chronicle, and one of the clearest-headed and best-hearted men in the world's great metropolis, (which paper is printed in the Congressionalist, of Boston,) we learn that something remarkable and very substantial has been done for the small boy in London, who, by the way is very much like the small boy in Springfield, only perhaps drier and in poorer circumstances. Many years ago a London merchant—Mr. Quintin Hogg, by name (certainly not a hog by nature), purchased an old theater in the west end of London, called the Polytechnic, at an enormous price, paying the money all out of his own pocket, and this is the kind of a place he has made of it: There are at present 2,500 members, the present limit of accommodation being reached, and there are many hundreds of young men with their names down, waiting for admission. The subscription is threepence (or six cents) per week, payable monthly in advance, or three shillings (or 72 cents) per quarter, entitling members to free use of the library, reading, social, chess and draught rooms,

admission to the Saturday evening popular concerts, entertainments and lectures, at a nominal fee, and the privilege of joining the classes at greatly reduced rates; also the use of the gymnasium, with tuition in fencing, gymnastics by a skilled instructor, and in summer the swimming bath at a small charge.

Besides the members there are a great many students who merely attend the classes, which constitute a very remarkable educational agency. There are, at present, 5,300 individual students, receiving instruction in something like 140 classes, on the ordinary subjects of education; and the various branches of science are taught, and technical instruction is given in all sorts of trades. These classes are presided over by thoroughly competent teachers. The technical classes receive instruction from experts on their various subjects. The success of these classes has been commensurate with their size. At the technical examinations the students (Mr. Clarke assures us) have distinguished themselves above those from any other institute or technical college in the kingdom. This is especially true of the plumbers, the carriage building and the watch making classes; while the photographic class carried off all the medals offered in that subject.

And the morals of the boys are not neglected, for Mr. Hogg has a Bible class on Sunday afternoon, attended by between 500 and 600 boys and many men, and Mrs. Hogg has a Bible class on Thursday evening, with 120 members. On Sunday evening the large theater, a well-proportioned and elegantly decorated auditorium, capable of accommodating from 1,200 to 1,500 people, is crammed with the young men and their companions, when an evangelistic service is conducted by Mr. Paton. There is an after-meeting, to which sometimes 500 remain. There is a Christian Worker's Union of about 230 members, who engage in evangelistic work among the members, in open-air preaching, and in supplying Sunday-schools with teachers. There has been no attempt at organizing a church, but whenever a young man shows an interest in religious matters he is asked with what denomination he has been in any way identified, or to which he may have any leanings, and he is then commended to some individual church. Temperance work is also vigorously carried on.

What becomes of these lads? There is but one answer to the question, and in it we find a solution of a great and supremely important local problem: They become intelligent and useful citizens, instead of scoundrels, preying upon the public!

It is Miss Ada C. Sweet, and not Miss Swift, who has declined to "resign" her position of pension agent, (at Chicago,) at the request of Gen. Black, who had assured her that she had performed her duties satisfactorily. She didn't think it would be in accordance with true civil service reform, as her term of office does not expire for a year yet, to vacate the place. This is the Black that we have been praising so profusely.

Billy Diehl's lion has been quite uneasy and his refused food ever since the result of last fall's election was announced, but since he read Tuesday night's GLOBE-REPUBLIC he has turned his face to the front, and with his head and tail up (like a bay steer in the corn) he snorts defiance to the toes of the Republican party.

With Cleveland in Washington the people of Buffalo feel that they are orphans, indeed. They have given away Grover and got nothing in return—and have had their splendid music hall burned too. Poor Buffalo; perhaps if she ever has a good thing, again, she will save it to herself.

We fear that our esteemed and able fellow-journalist, Mr. McLean, of the Cincinnati Enquirer, will not succeed. John Sherman as Senator from Ohio. There is some a fearful slip between the cup and lip! "You bet."

If we wished to give certain Democratic editors a dose of their own medicine we should say that Grover Cleveland had drawn the first month's installment of Mr. Blaine's salary.

Mr. Beecher is quoted as saying he would like to vote for Lamar for president next time. It must be that Mr. Beecher thinks Jeff Davis will not survive until 1888.

We are indebted to Messrs. Raphael Tuck & Sons, of New York, for a fine assortment of beautiful Easter cards.

To Grover Cleveland: Dear Sir—We have this end of the boat anchored to the rock of Republicanism!

The streets of the Quaker city are very foul and a writer in the Bulletin calls the town Filthy-delfia.

Much power to the arm and much strength to the nerve of Springfield's Health Officer.

The Republicans of Springfield are already well organized for the fall campaign.

Cincinnati is safe from cholera this year. She cleaned herself up, Monday.

The Ohio Legislature should pay itself off and go home.

Ohions now sing—"We've been redeemed."

## CUTICURA,

THE ONLY REMEDIES FOR THE SKIN AND BLOOD UNIVER-SALLY COMMENDED.

Wm. T. Totten, 422 North Tenth street, Philadelphia, reports that one of his customers stated to him incidentally that he was feeling so well and had gained so much weight in the last year, all of which he attributed to a systematic course of the CUTICURA RESOLVENT, which has proved efficient when all other remedies failed.

**SORES ON NECK.**  
Chas. Brady, Somerville, Mass., who refers to Dr. J. J. Wood, druggist, of that city, testifies to a wonderful cure of venereal sores on the neck which had been treated by hospital physicians, but which had yielded completely to the CUTICURA RESOLVENT.

**CURED BY CUTICURA.**  
My skin disease, which resisted several popular remedies and other remedies advised by physicians, has been cured by your CUTICURA. I feel better. They surpassed my most sanguine expectations and rapidly effected a cure.  
J. C. ARENTHUR, VINCENTS, IND.

**KNOW ITS VALUE.**  
All of our CUTICURA RESOLVENTS are very good. The CUTICURA I especially recommend for the diseases for which it is used. I know from experience that it is a very valuable remedy.  
DR. H. J. PRATT, MONTICELLO, WIS.

**CUTICURA ABROAD.**  
Through a home returned Norwegian, I have learned to know your CUTICURA, which has in a short time cured me of an Eczema that my physician's medicine could not heal.  
CHR. HOLTZEN, BLOKK, Norway.  
Agent for foreigning.

**THEY'RE POWERFUL.**  
A feeling of gratitude impels me to acknowledge the great merit of your CUTICURA and I cordially recommend it to the public as a very valuable remedy.  
H. N. POWERS, BRIDGEPORT, CONN.

For sale everywhere. Price CUTICURA, the great Skin Cure, 50c. CUTICURA SOAP, an exquisite Skin Beautifier, 25c. CUTICURA RESOLVENT, the New Blood Purifier, \$1.  
Pottier Drug and Chemical Co., Boston.

**CUTICURA SOAP, an exquisite Toilet, Bath and Nursery Manifold.**

## SANFORD'S RADICAL CURE FOR CATARRH

Witch-Hazel, American Pine, Canada Fir, Marigold, and Clover Blossoms.

A single dose of Sanford's Radical Cure instantly relieves the most violent Stinging or Head Colds, clears the head by magic, stops watery discharges from the nose and eyes, prevents Ringing Noises in the Head, cures Nervous Headache, and restores the normal functions of the system. It cures the nasal passages of four mucus, restores the sense of smell, taste, and hearing, when affected, from Catarrh of the Sinuses, and breaks the force of offensive matter, sweetens and purifies the breath, stops the cough, and arrests the progress of Catarrh towards Consumption.

One bottle Radical Cure, one box Catarrhal Solvent and Sanford's Inhaler, all in one package, and all drugs for \$1. Ask for SANFORD'S RADICAL CURE.

Pottier Drug and Chemical Co., Boston

**COLLINS' PLASTER**  
For the relief and prevention of the most painful and dangerous diseases of the system, such as Rheumatism, Neuralgia, Catarrh, Coughs, Colds, Weak Back, Stomach and Bowels, Shooting Pains, Numbness, Brachitis, neuralgia, Pains, Palpitation, Dyspepsia, Liver complaint, Rickets Fever, Malaria, and Epidemics, use COLLS' PLASTER. It is a Electric Battery combined with a Porous Plaster and is used with pain, 25c. everywhere.

**OFF FOR THE ISTHMIUS.**

The Second Battalion Embark for Panama—Will Clear the Isthmus of Columbian Bushwhackers—Charges Fever and Spring Rains the Only Danger.

NEW YORK, April 8.—The tug boats Nina and Catalpa conveyed the second detachment of marines for Aspinwall from the navy yard in Brooklyn to the Pacific Mail dock at the foot of Canal Street in this city yesterday afternoon. As the tug steamed around the Battery and up the river the fifers and drummers played stirring melodies, and the men scattered at will around the boat, laughing and chatting. When the pier was reached they quickly landed, formed in companies, and marched on board the Acropolis in single file.

Captain J. H. Higbie is in command, and First Lieutenant William F. Spicer is Adjutant of this detachment, which is to be called the Second Battalion, the one which left Saturday being known as the first. The five companies are commanded by Captains R. W. Huntington, R. S. Callum, W. S. Muse, G. C. Reid, F. M. Harrington. Lieutenants Alibon Butler and Henry command the three Gatling guns, and Lieutenants Mason, Kellogg and Colwell, of the three-musk guns. There are 140 men in the two batteries. Commander B. H. McCalla is in command of the expedition.

Commander McCalla said: "I don't know how long we shall stay, but I suppose most of the trouble is over. It seems already to be subsiding, and our chief difficulty will be the heat and fever."

Captain G. C. Reid said: "I have spent considerable time in Panama, and we may have considerable trouble with these Columbian. We have got to clear the Isthmus and these fellows are setting in. They shoot from behind, from their hiding places, and it is hard to catch them."

A naval officer who has had years of experience on the Isthmus, said: "The boys imagine they are going on a junking tour, but I fear they will be sadly disappointed. It is not only foolish but outrageous for the Government to send a few hundred men down there at this season when the spring rains and the Chagres fever are setting in. Hundreds of men will have to be sent and hundreds sacrificed."

**Iowa State Auditor's Troubles.**  
DAVENPORT, April 8.—Deposed State Auditor Brown arrived here yesterday and was immediately arrested by J. M. Duffins, one of his bondsmen, who wished to withdraw as security, and is allowed this mode of doing so by statute. Brown's attorney applied to the Supreme Court in session here for a writ of habeas corpus, which was granted, returnable this morning, when cause must be shown why he is held under arrest for exercising the duties of his office after being suspended.

**Trying to Defraud an Insurance Company.**  
CHARLESTON, W. Va., April 7.—On February 27 the clothing store of M. Kaufman burned, and a large portion of his stock was supposed to have been destroyed. The companies in which he was insured sent special agents to settle the insurance. Some occurrences led them to suspect sharp practice of some kind, and they determined to investigate the matter, and on Friday they found \$2,000 worth of clothing had been hidden in the stores of Kaufman's friends. The companies in which he was insured refused to settle any portion of the insurance, and Kaufman will bring suit.

**A Distressing Tragedy.**  
PARKERSBURG, W. Va., April 8.—A most horrible tragedy occurred at Pennsboro, near here, Sunday night. Dr. E. H. Martin and "Babe" Timmins had a dispute over forty-five cents. Timmins was coaxed away by his friends, but had not gone far, when Martin began firing at him. One bullet lodged in Timmins' groin. Timmins returned the fire. At this juncture Martin's twelve-year-old daughter, seeing her father in danger, ran to protect him, when she was hit by a bullet and killed. Both Martin and Timmins are under arrest.

## WASHINGTON.

The Secretary of the Navy Has Appointed Three Persons to Pass Upon the New Steamer Dolphin.

Detaching Naval Officers From Their Vessels in the Asiatic Squadron—The New Soldiers' Home at Leavenworth, Kan.

**THE NEW STEAMER DOLPHIN.**  
WASHINGTON, April 8.—Secretary Whitney yesterday addressed a communication to Rear Admiral Edward Simpson, President of the Naval Advisory Board, informing him that he had decided to designate three persons who have not been connected with the construction of the new steamer Dolphin, to assist him in the discharge of his duty of passing upon the final payment. The Secretary notified the board of this action in order to obviate his action from any intention to reflect upon the correctness of the conclusion reached in the case by the Advisory Board. The board to assist the Secretary will consist of Captain George E. Bellnap (who has the highest rank of his grade in the navy) and Commander Evans. The board is to examine and report as to whether or not the vessel has been constructed in accordance with the terms of the contract.

The following telegram from Colon was received by the Secretary of the Navy yesterday morning: "Nothing new, only Panama Railroad Company at work getting the road in order. Government troops anxious about their prisoners. Railroad company feeding troops and all in need. Great anxiety among foreigners at Panama."

"KANSAS," Commanding.

Secretary Whitney has said that his action in detaching naval officers from their vessels on the Asiatic station for having their families near them, did not indicate that the order forbidding the proximity of an officer's family would be continued, but merely that until it was revoked it would be enforced. This is construed to intimate that Secretary Chandler's recent order respecting this matter, forbidding the proximity of naval officers, will not be in existence a great while longer.

General Lawton, of Georgia, arrived here Monday night and is the guest of Hon. R. Merrick. The impression prevails that General Lawton will be appointed to the Russian mission notwithstanding the objection on the part of some members of the Senate Committee to confirming his nomination.

The Board of Managers of the Soldiers' Homes met here yesterday. General Negley, chairman of the Board, reports all of the Homes in excellent condition. The new Home now in course of construction at Leavenworth, Kan., which will accommodate 3,000 soldiers, will be ready for occupancy next fall. When completed this will be the finest of its kind in the country. Colonel Smith, formerly of the Marine Corps, has been appointed Superintendent of the Leavenworth Home. The Board will leave to-day to visit the Home at Hampton, Va.

The attorneys for the Pacific Railroad have filed briefs with Secretary Lamb asking for the allowance of a rebate for equipment, etc., which Commissioner of Railroads Armstrong refused to allow in his last settlement with these roads.

The question as to the right of the Southern Pacific Railroad to lease other land grant railroads has been referred to Commissioner Johnson for a decision. The point is a new and important one in the relations of the Government to the land grant roads, and the decision is awaited with great interest.

William E. McLean, of Terre Haute, Ind., has been selected as First Assistant Commissioner of Pensions, to succeed Major Walker, resigned. Mr. McLean will be appointed in a short time.

A delegation of citizens of Dakota called on the President yesterday and requested him to revoke the order suspending the execution of President Arthur which threw open to settlement the lands in the Winnebago Indian Reservation. The President returned the delegation to Secretary Lamb, who gave them leave and afterwards wrote that he would give the case his early consideration.

**SCANTIC SWINDLE UNEARTHED.**

Three Hundred Cases in Which Frauds Have Been Perpetrated Upon the Government by Sharpers in Southern Arkansas.

LITTLE ROCK, Ark., April 8.—The attention of the Interior Department has been called to the gigantic swindle which has been perpetrated on the Government by a few sharpers in southern Arkansas. The investigation of the matter now in progress in La Fayette, Columbia, Union and Osage counties, has implicated fifteen persons and unearthed 300 cases in which frauds have been perpetrated. Under the graduation act, passed by Congress in 1845, the purchasers of lands in the sections should have required title at 12 1/2 cents per acre.

Further a misconception of the law many who purchased large tracts of the Government land were required to pay fifty cents per acre. A great many persons to whom this land was sold have died, and the whereabouts of the heirs is unknown. The parties implicated recently, through fraud, secured letters of administration on the estates, and presenting the claims to the United States Land Office, secured the 75 cents over and above the Government. In many instances letters of administration have been procured on the estates of persons alleged to be deceased, who are alive and reside in the State.

**Murdered in a Street Car.**  
NEWPORT, Ky., April 8.—A sensation was caused here yesterday morning by a tragedy in which two citizens of this place figured as principals. John S. Cummings, a clerk in the First National Bank, was seated in a street car, on his way to the bank, and when within a few blocks of his destination a man suddenly boarded the car and walked up to where Cummings sat, drew a pistol and exclaimed: "You villain, I have you at last." The man fired three shots, killing Cummings instantly. The assassin then gaily placed the pistol in his pocket and said he was ready to surrender himself. The man was taken into custody and at the station house recognized as a respected citizen of this place. He declined to make any statement further than that he was pleased at what he had done. It is believed that he killed Cummings in revenge for the ruin of his daughter.

**The Raven Run Colliery Disaster.**  
SHEENANDOA, Pa., April 8.—The damage to Raven Run Colliery by yesterday's cave-in is so great that it is hardly likely that the mine will ever be re-opened. The point at which the men were working was directly under the fall, and there can be no doubt that they were instantly killed. Two gangs of men are at work, twenty in all, trying to recover the bodies of the ten victims. Experienced miners say a week must elapse before any are reached, and it may take months to recover them all. Six of the unfortunate men were married. They leave, besides their widows, thirty-nine children.

**Judge Fuller Still Living.**

BOSTON, April 8.—It was announced yesterday morning that Judge Henry W. Fuller, of the Roxbury Municipal Court, died Monday after a short illness. The report is not true. Judge Fuller, although very ill, is considered to have passed the critical point and is now on a fair way to recovery.

**General Barrios' Death Not Confirmed.**

NEW YORK, April 8.—Antonio Barrios, son of the Guatemalan President, is at the Windsor Hotel and says he has not heard from home and does not believe the story of his father's death.

**BROWN'S IRON BITTERS**

THE BEST TONIC.

This medicine, combining Iron with pure vegetable tonics, quickly and completely cures Dyspepsia, Indigestion, Weakness, Impure Blood, Malaria, Chills and Fevers, and Neuralgia.

It is an infallible remedy for Diseases of the Kidneys and Liver.

It is invaluable for Diseases peculiar to Women, and all who lead sedentary lives. It does not injure the teeth, cause headache or produce constipation—order from medicine men. It enriches and purifies the blood, stimulates the appetite, aids the assimilation of food, relieves Heartburn and Belching, and strengthens the muscles and nerves.

For Intermitting Fevers, Lassitude, Lack of Energy, &c., it has no equal.

See the genuine has above trade mark and—Beware of cheap imitations. Take no other. Made only by BROWN'S CHEMICAL CO., BALTIMORE, MD.

**PROVIDENCE**

Helps those who help themselves. Nature has provided herbs for the cure of human ailments and medical science has discovered their healing powers, and the proper combinations necessary to conquer disease. The result of these discoveries and combinations is

**MISHLER'S HERB BITTERS.**

For many years it has been tested in severe cases of Kidney and Liver Disease, Malaria, Dyspepsia, Indigestion, Weakness, Lassitude, and, invariably it has given relief and cure. Thousands of testimonials have been given, and it is most popular where best known.

J. O. Steinheiser, Superintendent of the Lancaster Co., Pa., hospital, writes: "I used this a great many cases of dyspepsia, kidney disease, liver complaint, rheumatism, and by using one bottle of Mishler's Herb Bitters a complete cure has been effected."

F. Hoffman, of Circleville, Ohio, says: "This is to certify that I have had the dumb Colic and Stomach trouble cured by using one bottle of Mishler's Herb Bitters."

**MISHLER'S HERB BITTERS CO.,**  
525 Commerce St., Philadelphia.

**Parke's Pleasant Worm Syrup Never Fails**
